11 April 2022

Dear Sebastien

**Planning Application 2023/0292
F106, Gilbert Scott Building**

The Putney Society was shocked to see that this application has apparently been validated in its current form and expects the council to refuse consent on the basis of incomplete information.

The statutory list description (see <https://historicengland.org.uk/listing/the-list/list-entry/1357693>) seem to have been written before conversion in to flats but does note 'timber small paned French windows leading on to the terraces'. But without illustrations of what exists and a plan showing where these are how can you judge if the replacements are suitable? Where is the assessment of historic significance which is a basic validation requirement?

If this gets through it sets entirely the wrong precedent for protecting our heritage, inviting similarly casual applications for more significant losses.

Yours Sincerely

Andrew Catto

Andrew Catto,
Buildings Panel Convenor
For and on behalf of the Putney Society.
